When Mark McPherson first falls in love with Laura, he knows he's in love with a phantom - for Laura is dead. He is a Special Investigator looking into the circumstances of her murder. From her haunting portrait, her letters, and from the three men who loved her he has created an image of a woman who seems tantalizingly alive and real. Then, in the midst of a violent storm, Laura reappears. Don't miss this mystery, and love story all wrapped up in a classic thriller. Tickets are \$1.00 for adults, 50¢ for students and senior citizens. Ticket sales begin March 22.

**HELP FOR THE BEDWETTING CHILD

Recent research has found that as many as 5 to 10% of children in elementary and junior high school wet their beds. Most parents of bedwetters are as frustrated by this problem as are their children, and many have tried a variety of remedies from medication to hypnosis. Clinical psychologist Louis J. Gallagher, Ph.D. has developed a widely tested method for aiding children with eliminative problems. He will discuss his individual treatment approach which has led to safe and long-lasting solutions for many children. Admission is free.

NOVEL IDEAS

The Novel Ideas book discussion group will meet on Friday, April 11 and Friday, May 9 at 1:00 p.m. Mario Vargas Losa's *Aunt Julia and the Scriptwriter* will be discussed at the April meeting. A speaker representing one point of view will be presented each night and time will be provided for questions from the audience. The first speaker, on April 16, will be Marge Harrison from Long Island Public Power Project. The April 23 speaker will be a representative from LILCO.

**THE MERRY WIDOW

**BREAST RECONSTRUCTION: THE
ALTERNATIVES
Tuesday, April 29, 7:30 p.m.**

Breast cancer is one of the most common cancers in American women, with approximately 90,000 cases reported every year. The prognosis for this type of cancer has improved considerably, and yet thousands of survivors are left with the trauma of having undergone a mastectomy. Dr. Candido Fuentes-Felix, a plastic and reconstructive surgeon, will outline and show examples of the alternatives for breast reconstruction. He will discuss who is a good candidate for breast reconstruction and when it should be done. A question and answer period will follow.

All programs are held in Northport unless otherwise indicated.

YOUR LIBRARY IS BEING AUTOMATED!

We are installing a Gaylord Computerized Circulation System to improve our service to you. Perhaps you have already seen computer bar code labels above the back book pockets of some of our books. - check out and return of library materials
- borrower registration
- filling of patron reserves and interlibrary loan requests
- access to holdings of other Gaylord computerized libraries
