The Parents' Collection & The Educators' Collection

Two unique resources for adults working with children

The Parents' Collection

The Parents' Collection was established by the Library in the late 1980s to support new and innovative programs for parents and children. The collection addresses all aspects of child growth and development and the process of parenting children from birth through adolescence. In 1999, a small collection of materials from the Northport-East Northport School District's Parent Center was relocated to the public library and incorporated into the existing Parents' Collection. These resources are identified with The Parent Center logo. There are currently more than 3,000 titles available in

The Parents' Collection includes:

- books, audiobooks, videos, and magazines about general parenting topics—prenatal through adolescence
- a bulletin board and pamphlets highlighting relevant resources and events in our community
- an Information and Referral File which puts parents in touch with community services and recreational programs
- bibliographies and webographies about the issues of everyday life such as: new baby, separation anxiety, starting school, divorce, and death

The Educators' Collection

The Educators' Collection, established in 2001, is designed to support adults in their work

with children. This collection was created by the Library in response to interest from teachers and others in the community. Parents who are home schooling their children, elementary and nursery school teachers, and adults seeking creative materials which inspire a love of language and literature will find useful resources here. There are currently more than 700 volumes available and different titles can be found in each library. This valuable collection is housed in the Children's Room, adjacent to the Parents' Collection. Circulating materials include books, periodicals, videos, and audiobooks.

- Educators will find resources to:
- incorporate children's literature into the learning environment
 - foster learning and/or emergent literacy
 - conduct developmentally-appropriate activities and programs
 - critically evaluate children's literature
 - introduce storytelling techniques
